

Hi Team,

So just to clarify for your information, and my apologies in advance for causing you more work.

Regarding the assets, as I mentioned the red border frames and elements are taken from:

`Image by upklyak` on Freepik

This is the attribution they require for a free download and so long as is attributed then their license covers:

I have used the last clause to modify the element I needed.

As also mentioned the logo font is Ringbearer. This is a non-commercial font and I assumed that for Roll20 character sheets which are not commercial in and of themselves, e.g. nobody makes money out of them explicitly (or do they?), that this would be OK.

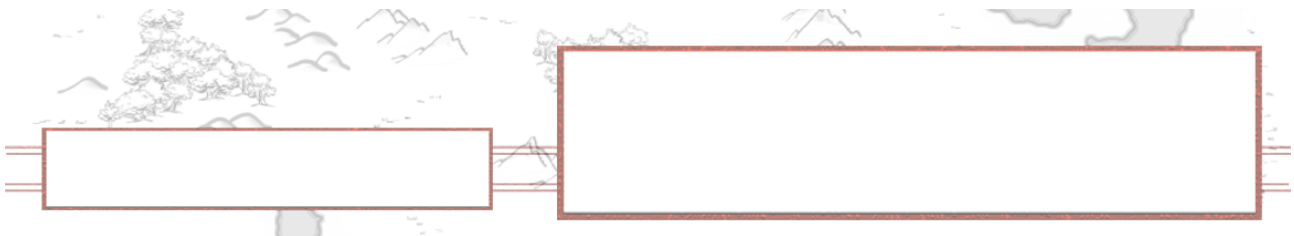

The background map is a Middle Earth map, I *think* from the Internet, but *maybe* from FLP's LoTR 5e PDF. I can see that may be an issue! The Elvish writing was again from a font off the Internet, probably easier to remove that...

The character sheet font is a Google font (Aclonica) so I imagine that is OK...

```
@import url('https://fonts.googleapis.com/css?family=Aclonica&display=swap');  
  
body {    font-family: 'Aclonica', sans-serif; }
```

If it would help I have re-done the logo and the banner. The logo now uses Times New Roman font, and the banner has a map of my own creating, and the Elvish writing has been removed:

THE LORD OF THE RINGS

So the character sheet looks like:
